Re: US Technology Corporation  
RCRA-07-2016-0032

Dear Ms. Mills:

On June 6, 2018, you submitted an email indicating that your client, U.S. Technology, was preparing to submit a work plan regarding the Berger, Missouri facility. The U.S. Environmental Protection Agency found your client in violation of the Consent Agreement and Final Order issued September 21, 2016 and the Amended CAFO entered September 28, 2017. EPA has issued letters, with specific deadlines, requesting an approvable work plan, and other requirements set forth under the CAFO, on September 12, 2017, February 15, 2018, and March 23, 2018. EPA has not received timely or compliant responses to these letters.

EPA formally notified your client of its non-compliance with the CAFO and Amended CAFO on April 29, 2018. Nothing EPA has received since that time has changed this situation. The EPA is not interested in receiving further work plans from your client.

Sincerely,

Mary Goetz, Chief  
Waste Enforcement and Materials Management Branch  
Air and Waste Management Division
